

Email Backup

Automatically protect and recover business-critical data.

Works with Microsoft 365, Google Workspace, and IMAP/POP3 servers

Dropsuite Email Backup and Email Archiving solutions are the fastest-growing cloud backup, archiving and recovery SaaS solutions in the world.

Dropsuite's **Email Backup** ensures your critical business data is backed up safely and securely by adding powerful solutions that automatically protect your most important data in the cloud and restores any file on demand. We back up Microsoft 365/Office 365, Google Workspace/G-Suite and all instances of email - the most important documents to any business.

Dropsuite's ongoing attention to features based on businesses' needs, like granular restore, military-grade AES encryption and automated and incremental backups make Dropsuite's Email Backup an effective solution. Our user-friendly interface allows you to confidently "set and forget" so you can focus on your business, not your backup.

Insights BI is also included with Dropsuite's Email Backup. Insights BI is an email analysis tool providing a robust email analytics toolset to transform stagnant, archived email data into actionable business intelligence. Dropsuite Insights BI turns complex and extensive email data sets into simple and actionable reports, graphs and charts.

SECURE

Dropsuite's regulation-compliant servers employ 256-bit (AES) military-grade encryption and support multi-factor authentication (MFA).

EASY TO USE

Our single-panel dashboard includes admin and user management options and role-based access, supporting single sign-on (SSO).

POWERFUL BUSINESS TOOLS

Dropsuite's advanced search and business intelligence features add value to other areas of your business including HR, compliance and research.

Our numbers speak louder than words

- Group Supervisor by department

Microsoft 365 and Google Workspace

Dropsuite's Microsoft 365 backup and Google Workspace backup are simple and powerful solutions that automatically protect your most important data in the cloud and restores any file on demand.

Microsoft 365

Outlook	SharePoint	OneDrive	Contacts/ Calendars/ Tasks	Groups & Teams
<ul style="list-style-type: none"> View email without search Migrate per user to other user or destination Download (PST EML) Download Mailbox Shared Mailbox Restore mailbox, folder, message Migrate per mailbox to other user or destination Download PST, EML, mailbox 	<ul style="list-style-type: none"> Restore site, document library, folder, files Restore to other site Restore all to one folder Download files Lists – items and columns for all permissions Document Libraries – content, views and content types for all permissions Sub-Sites – lists and document libraries 	<ul style="list-style-type: none"> Restore drive, folder, files Restore to other drive Restore all to one folder Download drive, folder, files 	<ul style="list-style-type: none"> Restore calendar events, contacts, tasks Download files Email and Folders for Mailboxes and Public Folders Shared Mailboxes 	<ul style="list-style-type: none"> Download files Channel Chat Tasks Email Drive Site Calendar Files Conversations Notebook Planner

Dropsuite also restores, migrates and downloads **Shared Mailboxes**, restores and downloads **Public Folders** and backup **OneNote** on **SharePoint** for users and **Teams**.

Google Workspace

G-mail	Shared Drive	My Drive	Contacts/ Calendars/ Tasks
<ul style="list-style-type: none"> Restore mailbox, label, message Migrate per user/per mailbox to other user or destination Shared Mailbox Download PST, EML, mailbox Restore to original label, other label, new label Restore to original mailbox/user Restore/Migrate to other GSuite mailbox/user Restore/Migrate to other O365, Hex, Gmail and other mailbox/user 	<ul style="list-style-type: none"> Restore all file types, including Google files Restore Shared Drive to new folder Download Shared Drive file Restore with conflict option (Append, create a copy, replace, skip) Advanced Search for Shared Drive 	<ul style="list-style-type: none"> Restore drive, label, files Restore to other drive Restore all to one folder Download drive, folder, files Restore all kinds of files including Google file type Restore to original My Drive Download My Drive file Restore with conflict option (Append, create a copy, replace, skip) 	<ul style="list-style-type: none"> Restore Contacts Restore Calendars Restore Tasks Download Contacts Download Calendars–Event, Meeting, etc Download Tasks

Dropsuite also restores, migrates and downloads **Shared Mailboxes**, restores and downloads **Public Folders**.

Dropsuite, It's a No-Brainer

GREAT VALUE:

For the cost of a cup of coffee each month, a company's Microsoft 365, Google Workspace and email files can be protected against the threat of ransomware, accidental data loss, or sabotage.

FILLS A BACKUP PERFORMANCE GAP:

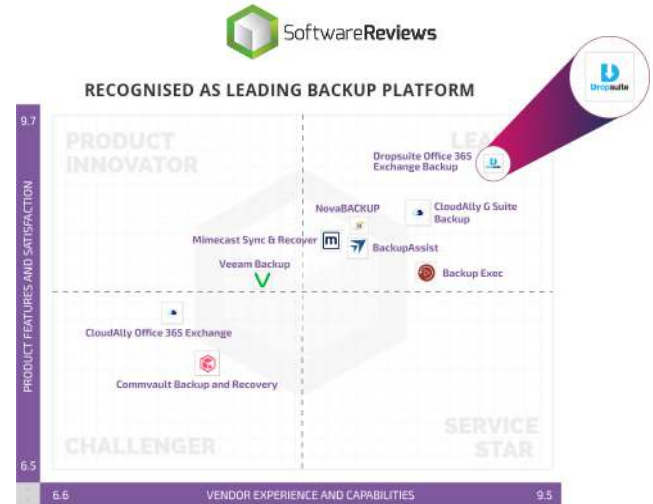

Microsoft doesn't backup deleted emails for more than 90 days and Google deletes files after 60 days. Dropsuite gives you uninterrupted backup coverage in the cloud, with unlimited storage.

GAIN PEACE OF MIND:

Threats to company data have never been higher. In the same way businesses ensure their companies from liability, fire damage or theft — every business needs to be backing up their business-critical data files.

ABOUT DROPSUITE

Dropsuite is a cloud software platform enabling businesses and organizations globally to easily backup, recover and protect their important business information. Dropsuite's commitment to advanced, secure, and scalable cloud technologies keeps us in the forefront of the industry and makes us the choice of leading IT Administrators and Service Providers globally.

Third party backup is critical to your Business

Continuity and data protection/recovery efforts:

Why back up email? Human error is the main cause of 95% of cyber security breaches, and 94% of malware is delivered via email.* From simple opening of the wrong email to accidental deletions to disgruntled employees, it's easy to lose your critical email data.

The cloud email backup myth. "I don't need email backup because I use a cloud service like Microsoft 365, Google Workspace or Open-Xchange." Not true. Although related cloud-based systems provide limited ability to partially backup email data, they do not properly protect email data and your business.

Microsoft and Google do not have you covered. From Microsoft's Service Agreement (Sec.6b): "In the event of an outage, you may not be able to retrieve Your Content or Data that you've stored. We recommend that you regularly backup Your Content and Data that you store on the Services or store using Third-Party Apps and Services."

Google deletes end-users' Drive files in the Trash folder after keeping them for 30 days. Google Workspace allows admins to restore items deleted from a user's trash for up to 25 days. Emails are also kept in the Trash and Spam folders for 30 days.
