"Dropsuite is a very reliable tool with an automated one click feature for both backups and restores saving lots of time and also keeps the data secure."

**SHRINIAS K.**  
END USER, TECHNOLOGY

"One of Dropsuite licenses allows for backup of the exchange mailbox and OneDrive and test data. it back ups everything for the Office 365 licensed account. Other companies will only back the mailbox and NOT the other data folders like the OneDrive Cloud data folder. Dropsuite is a one-stop shop."
